

# OREGON ASSOCIATION OF LICENSED ELECTROLOGISTS, INC.

## OALE Zoom Seminar Sunday April 25, 2021

### Schedule

**9:00-11:00 Stacey Elder, CPE**

**11:00-11:30 Break**

**11:30-1:30 Sara Paisner, PhD**

**1:30-2:00 Break**

**2:00-3:00 OALE Membership Meeting & Elections**

### **Speaker: Stacey Elder, CPE**

**Topic :** Effective Electrolysis Treatment of Dark-Skinned Patients

**Time:** 9:00am-11:00am 2 hours

**CEUs:** AEA-Approved 0.2, HLO-Approved 2 CE hours

**Bio:** Stacey A. Elder is the owner of the Epilation Clinic, LC, a successful electrolysis and skin care clinic in Baltimore City and an internationally recognized authority on electrolysis for skin of color. She has been a Certified Professional Electrologist since 1992. She is the recipient of the 1995 Ballet Gold Probe Award. Stacey has endeavored to fulfill the potential recognized by that award by becoming an Electrolysis educator and lecturer. She has shared her considerable knowledge of treating dark and melanin rich skin through written articles, lectures, and interviews. She is the full package – positive energy; business savvy; spiritual connectedness; and intense passion for helping people feel empowered and beautiful in mind, body, and spirit. She is an electrologist, a professor, a skin care professional, an author, a community volunteer, a motivational speaker, a lecturer, a mother, a daughter, and a widow. She is a holistic healer who helps clients realize that change for the better is not only possible, but fun.

### **Speaker: Sara Paisner, PhD, MBA**

**Topic :** The Science & Chemistry of Epilation – Why it all Works

**Time:** 11:30 am -1:30 pm 2 hours

**CEUs:** AEA-Approved 0.2, HLO-Approved 2 CE hours

**Bio:** Sara N Paisner, PhD, MBA

Dr. Sara Paisner is the President of Synoptic Products. Dr. Paisner worked in various clinical research organizations such as Quintiles (now IQVIA), Worldwide Clinical Trials and Q<sup>2</sup> Solutions. She was the Director of Marketing at Portfolio Decisions (now Aucerna) where she led marketing strategy and tactical execution, She was a researcher at GE Global Research and Lord Corporation developing materials for the electronic industry, some of which are likely in electronics you use today. Dr. Paisner is the author of articles in trade magazines, peer reviewed journals, websites and a marketing blog, along with 5 patents and a book chapter. For fun, Dr. Paisner likes to sail, go backpacking, train in martial arts and, when she can find the time, travel. She speaks fluent Japanese and French.
